

Students in grades 4-6 will be exposed to basics of computer programming using fun and friendly graphical environments, such as Scratch, Code.org, and Codecademy. Our "STEM Summer Campers" will learn how to design their own board games, create simple computer games, manipulate the behaviors of LEGO MindStorm Robots, and explore how 3D printing works. Students will engage in STEM activities offering challenging tasks that are authentic in nature, develop leadership skills, enhance creativity, and promote social skills and communication.

When: July 11-14, 2016, 8:30 - 3:30 pm
Where: DeSales University, Dooling Hall
